

# Location Master: Is it possible to get the format files and the report layouts along with the branch data?

**Scenario:** It creates a problem while restoring a branch data as it doesn't enclose the format files, report layout files etc. Is it possible to enclose all the files along with the backup file in a zipped format?

**Answer:**

During Branch Data creation, RanceLab® FusionRetail™ 6 now creates a zipped file containing the format files, report layout files, the photo folder and the Branch data backup file. Earlier while creating the branch data the software only creates the backup file in .BAK format in the Data folder within the FusionRetail6 folder. Now the zipped file is created with location name within the Backup folder. The steps are,

1. Go to [Main Menu > Master Data Management > Inventory > Location Master \(M > I > L\)](#)
2. Alt + L
3. Select Location from the list.
4. Alt + C, to create branch database for that location.
5. Press Ok.

Create Branch DB for Location: Bangalore

Backup Complete at  
C:\FusionRetail6\Backup\  
FR6\_BranchDB\_Bangalore.zip

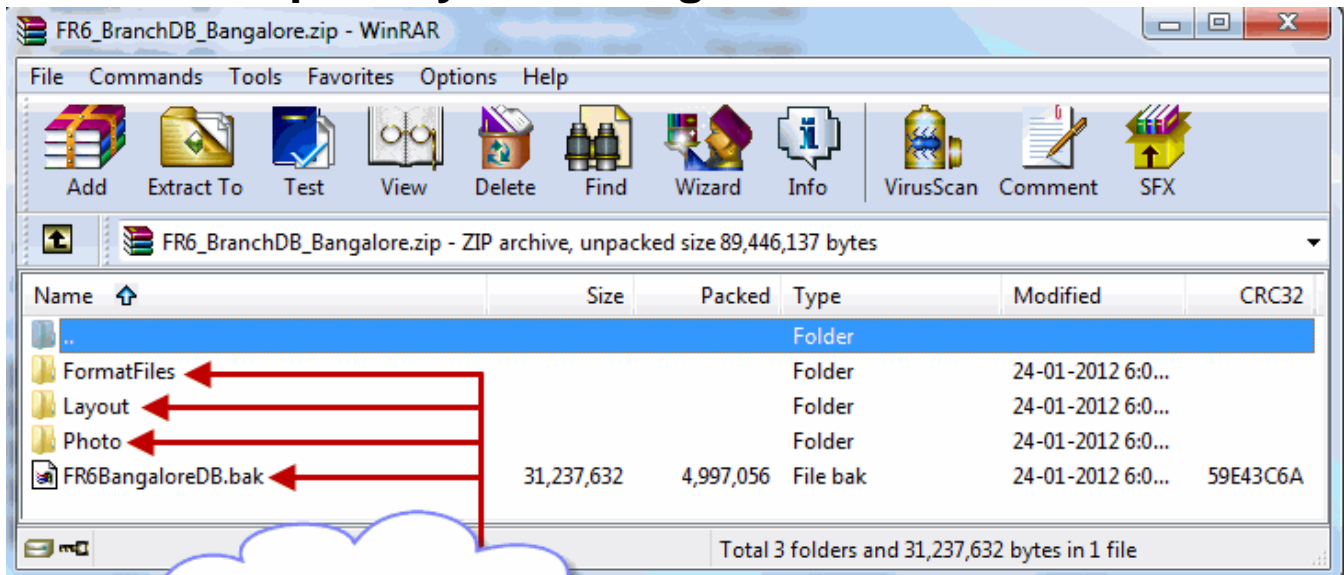

Ok

Branch Data is created in a Zipped format in the Backup folder.

WinRAR ZIP archive (5)

File Name	Date/Time	Format	Size
FR6_BranchDB_Bangalore	24-01-2012 6:03 PM	WinRAR ZIP archive	12,638 KB
FR6DBBack24-01-201235340	24-01-2012 3:54 PM	WinRAR ZIP archive	13,121 KB
FR6DBBack24-01-201260041	24-01-2012 6:01 PM	WinRAR ZIP archive	13,131 KB
FR6DBBack1221201142025	21-12-2011 4:20 PM	WinRAR ZIP archive	9,995 KB
FR6DBBack10292011113730	29-10-2011 11:37 ...	WinRAR ZIP archive	5,998 KB

# Location Master: Is it possible to get the format files and the report layouts along with the branch data?

The Format Files, Layout and the Photo folders along with the Branch Data backup within the Zipped file.
